WHAT WILL THE WIGWAM RULER DO WITH THE CITY TREASURY?

CONTROLLER MYERS STILL BELIEVES THAT HE IS TO BE TURNED DOWN-SOME OF HIS FRIENDS HOPE THAT HE WILL BE, AS THEY THINK IT WOULD MAKE HIM MAYOR IN 1894.

No change in the situation regarding Tammany Hall's intentions as to Controller Myers was an nounced yesterday. The Controller said that he session of no additional information, and had not altered his opinion that the leaders of the Wigwam had decided to put another man in his

'I am personally wholly indifferent in regard to the result," he said. "I have remained in office to my own disadvantage, and have sought to do my duty, regardless of what might follow. It has not always been an easy task to adhere to the course I deemed to be right, against the optnions and wishes of a majority of my colleagues in the Board of Estimate and in the Sinking Fund Commission, but I have every reason to feel that the people have approved the stand I took on more than one occasion. I much prafer roing out of office with the record I have made than to remain with the consciousness of having sacrificed one jot of the interests of the city. I shall not be disappointed whatever may be the decision of the convention which will meet in Tammany Hall next esday evening."

There was a disposition in Tammany circles terday to advance as a reason for Controller Myers's overthrow statements which he was alleged to have made arraigning the Mayor and the Tammany members of the Board of Estimate and the Sinking Fund Commission in interviews published yesterday. But a careful examination of these inted statements failed to reveal any such hostile utterances, so that this apology for the intended down of the Controller, "that he would have been all right if he hadn't shot his mouth

off." gradually ceased to be reported.

Before night several well-known leaders began to express a belief that "Myers would be nominated after all." Members of the inner council of the Wigwam who are supposed to know the mind of Croker said positively that the Controllership had not been settled.

Nevertheless, the popular judgment remained unchanged, that the bosses have fully determined to troller made his fight against the big scheme for the "improvement" of the river front recording "improvement" of the river front, according to the plans of the Dock Department, involving an expenditure of \$20,000,000 or \$30,000,000 of the taxpayers' money in one job, and followed this up by refusing to approve the new signalling system cted for the Police Department at a cost which the promoters themselves are as yet unable to figure out, it was believed that he bade adicu to licket waited on him yesterday afternoon. Mr all chances of a Tammany renomination. It was Gaynor, however, declined to accept the nominasaid yesterday that Mr. Croker apprehends no trouble whatever in securing the election of any man whom he may name for Controller, and that if he does finally decide to nominate Mr. Myers it will simply be in deference to public sentimen

it will simply be in deference to public sentiment and through no fear of injury to any part of the Tammany ticket.

It is known, however, that there are a number of cool-headed men in Tammany Hall who do not agree win Mr. Croker. They look upon a refusal to continue Mr. Myers in his present office as a bad piece of politics, and think that it would do more to unsettle confidence in the city government than anything that could be done at the present time.

Some of Mr. Myers's friends are anxious that he should be "turned down," believing that it would lead to higher political honors for him.

"Never mind, Mr. Centroller," said a taxpaver yesterday, who is a devoted admirer of his. "Let them throw you down this year if they wish. It will make you Mayor in 1894."

The names of Peter F. Meyer, Joseph J. O'Donohue, J. Edward Simmons and John D. Crimmins appear upon the list from which it is said Mr. Croker will choose a Controller on Tuesday evening.

Judge James M. Fitzsimons, who belongs to Croker's old district, will be renominated.

Among the well-known lawyers whom Mr. Croker has concluded he will send to the Constitutional convention from this city are William C. Whitney, Andrew H. Green, John Bigelow, John H. V. The Judge's relations with E. S. Stokes, proprietor of the Hoffman House, where he lives in New-York, have also been subjected to considerable omment. Stokes, it is understood, has been using his vast influence in Tammany Hall to secure Judge ch's renomination. A man of the Judge's supposed delicacy of feeling would be apt to shrink

posed delicacy of feeling would be apt to shrink from honors obtained by methods such as are common with Mr. Stokes.

But latest advices from both the Wigwam and the Hoffman House indicate that arrangements have been perfected for extending Mr. Reach's term another fourteen years. If re-elected he will probably continue to draw his 315,000 salary and let the judgments against him stand, regardless of the opinions of supersensitive friends.

ITEMS OF INTEREST TO CHURCH PEOPLE After many years of discussion in the American Board it would seem as though the Noyes case were at last in a fair way toward a final settiment. The meeting at Worcester this week has been characterized by a better spirit of unity than has been seen in many a year. The changes proposed in the Prudential Committee, enlarging it and changing the method of election, will, it is hoped, do much to bring the churches of the denomination into closer touch with the great m sionary enterprise carried on so successfully for more than eighty years. President Storrs has man aged the affairs of the board in an admirable way, and it is due largely to his catholic spirit and masterly grasp of the situation which has led to this happy result. DID NOT DECEIVE MR. MACDONA. In the trial of John McGlone for assault in Part III of General Sessions yesterday it was lear that the jury believed that Policeman Edwin V. Luman was both a brute and a perjurer. The prisoner had been accused of striking the officer, but was promptly acquitted, the jurors not even leaving their seats, Assistant District-Attorney Harry D. Macdona told Luman to take his "fake photograph and get out of court. The policeman had offered in evidence a photograph of himself purporting to show his injuries. The picture had plainly been scratched to make it appear that Luman's forehead had been frightfully cut.

The case was called before Judge Cowing. The oliceman declared that he had tried to arrest McGlone, who is a laborer and lives at No. 436 Second-ave., and Thomas McGowan, and that Mc Glone struck him with a bottle. The two men told an entirely different story, and were believed by the judge, jury and prosecuting attorney. Their account was that on the night of September 18 they entered Horn's barroom, at Twenty-fifth-st. and Second-ave., where they found Luman leaning

on the bar. "Are you fellows going to set 'em up?" askel

"No, we're not," repiled McGowan, "You get your money twice as easily as we do and you get twice as much." Luman scowled and turned to McGlone and repeated his suggestion. McGlone is a small man and

prudent, and he was going to pay for the officer's drink, but McGowan wouldn't let him do so. "Let him pay for his own drink," said McGowan, who, while short, is stocky. The policeman is a big fellow. "I'll get even with you for that," said Luman to

McGowan, and went out of the place "I'm sorry you did that," the bartender said to McGowan. "That copper's an ugly customer and do you up."

MeGowan answered that he wasn't afraid, because he had done nothing wrong. On the bar-tender's advice, however, he and his companion waited fifteen minutes before going home. As a matter of fact, Mexiswan hit the policeman with a small bettle, filled with whiskey, after being beaten, and McGlose had had no bottle. In court Judge Cowing expressed sympathy for Mexiswan, but the policeman said:

"Ah, he's playing the baby act, I think."

The photograph handed in by the policeman was evidently "loctored," and Mr. Macdona told the officer it was, and sent him out of court. McGowan made a complaint against the policeman, but Inspector Williams did not believe the charge. The Volice Commissioners will doubtlessly place Luman on trial.

Fox was a drunkard and his wife was compelled to leave him soon after the death of her second chibl, immediately its birth, about ten months ago. She became a urse in the family of Dr. H. F. Nordeman, at No 1,329 Madison-ave. She is twenty-two years old, and Dr. Nordeman said yesterday that she was a thorughly respectable and deserving young woman. Her husband on Thursday evening went to the house, managed to get an interview with her, and asked her to return to him.

"If you don't do as I say, I'll shoot you," he said with an oath. His wife fled into the house. At noon yesterday Mrs. Fox left the house with Mrs. Nordeman's infant in a baby carriage to give the child an airing. She and another nurse were sitting together on the steps of a house in East One-hundred-and-third-st., near Madison-ave., at 12:20 p. m., when Mrs. Fox saw her husband get off a car at the corner. With an exciamation of fright, the woman jumped off the steps and started to run away. Fox saw her and at once gave chase, at the same time drawing a revolver of small calibre from

JUDGE BURKE DEFEATED.

REVERSAL OF THE FORMER DECISION IN THE HOCKING VALLEY BOND CASE.

THE DEFENDANTS, ACCORDING TO THE GENERAL TERM OF THE SUPREME COURT, MUST PAY

UP ON EIGHT MILLION DOLLARS EONDS TAKEN FROM THE COMPANY.

The General Term of the Supreme Court has reversed the judgment in favor of the defendants in the suit brought by Congressman James J Beiden against ex-Judge Stevenson Burke, Wallace Andrews and others, in regard to the consolidated bonds of the Columbus, Hocking Valley and Toledo Railway Company.

In 1881 ex-Judge Stevenson Burke and a number

of associates purchased all of the stock of three coal roads in Ohio, and consolidated them into the Columbus, Hocking Valley and Toledo Railway Company. In order to pay for the stock they caused the company to issue \$5,000,000 bonds secured by mortgage on the consolidated road. The mort-gage represented that the bonds and their proceeds were to be used to double track the road, for terminal facilities and in other ways to improve the security. Instead of using the bonds in this way, Burke and his associates, who were directors Thursday evening Mr. McManus came forward and and officers of the consolidated company, it is alleged, sold them and used the proceeds to pay for the stock. Subsequently the company, under a new management, brought suit to recover the value of the bonds. It was defeated. Mr. Belden then brought suit to compel Burke and the other directors to make good the representations of the mortgage. The Special Term dismissed the suit on the ground that Winslow, Lanier & Co., the first purchasers of the bonds, assented to the alleged misappropriation, and that therefore subsequent purchasers from them could not complain.

The judges of the General Term say that this is a startling proposition, in view of the fact that five thousand million dollars are invested in such bonds upon the security of railroad mortgages, and they say that it is not law. The Court now holds Burke and his associates liable to pay over to the railroad company the full amount of the proceeds of the eight million dollars of bonds which they are alleged to have misappropriated.

IN MEMORY OF JUSTICE BLATCHFORD.

A TRIBUTE FROM THE BAR OF THE UNITED STATES SUPREME COURT.

Washington, Oct. 13 .- In pursuance of the notice given by ex-Senator Edmunds, at the opening of the Supreme Court, on Monday, members of the bar of that court gathered in its chambers this morning to pay a tribute to the memory of the late Arsociate Justice Samuel M. Biatchford, Joseph H. Choate was made chairman, and James H. McKinney, clerk of the court, secretary. Mr. Choate gave an elequent and earnest review of the life, character and services of the dead justice, with whom he had been associated in practice, and as an advocate before him, for many years. Julien T. Davies, George F. Edmunds, Jeremiah M. Wilson, William A. Maury, Calderon Carlisle and Solomon Claypool were appointed to prepare a minute. They reported, through Mr. Davies, the following:

through Mr. Davies, the following:

Mr. Justice Blatchford has closed a judicial career of over twenty-five years. Appointed in 1876 to the bench as District Judge for the Southern District of New-York, he brought to the discharge of his judicial duties capacity for labor and habits of exhaustive research, acquired during fig experience for nine years at the bar in that quiet town of Auburn, together with the qualities of promptness in dispatch of business and quickness of apprehension that had been cultivated by thirteen years of active practice in the city of New-York. His labors of District Judge will live in the shape and form that the law of bankruptcy and of admiralty received from his judicial hand. Later, from 1872 until 1882, as Circuit Judge, the law of patents especially owes much in its development to his patient research and faithful exposition. Appointed to the bench of the Supreme Court of the United States in 1882 he brought to the discharge of his high duties an intellect trained and disciplined by his former lybors in directions especially adapted to increase his usefulness in his new sphere. In this great tribunal he was distinguished as theretofore for his careful study of his cases, his patient and full statements of facts, and his learned and luminous expositions of the law. Always he wrought to the full measure of his strength. He gave to the service of his chosen profession, and of his country, all that was best of himself. He concentrated all his energies upon his official duties. Neither pleasure nor change of mental occupation had much charm for him. His lifety end.

judge, and all his powers were consecrated to this lofty end.

Resolved. That in the death of Mr. Justice Blatchford his friends have lost a kind and amiable companion, his profession a conscientious and earnest brother, the Supreme Court of the United States a faithful, able and ladustrious member, and the people of the United States an honest judge.

Resolved, That the Attorney-General be requested to lay this minute and these resolutions before the Court, and to ask that they be spread on the record.

Resolved, That the chairman be requested to transmit a copy of them to the family of Mr. Justice Blatchford.

The resolutions were supported in brief remarks

by Mr. Davies, Mr. Maury and Mr. Carlisle. They were then adopted and the meeting adjourned.

Few members called at the Navier Club in West Sixteenth-st. yesterday. The announcement that this prominent Cathelic organization was on the verge of bankruptcy seemed to have little unusual effect at the clubhouse. The declaration of the Moderator, Father Halpin, that the flag of the club would be hauled down and the doors of the house closed on January 1, unless \$1,500 could be raised by that time, did not seem to disturb the

"There is no doubt at all that the debts of the club will be paid in full, and that the organization will go on as before," one of the house officers said yesterday. "There is to be a meeting next egan to shoot at his own head. He fired four shots Thursday evening, at which some definite action will probably be taken. The election of a new board of officers will also be held at that time, and some important changes are to be made in the constitution and by-laws.

"One of the reasons that attendance at the club has fallen off so noticeably," continued the officer,

DR. BURTSELL GOES TO ROME.

HE WILL PROBABLY CONFER WITH THE POPE ON THE SITUATION HERE.

THE FORMER RECTOR OF THE CHURCH OF THE EPIPHANY WILL SAY LITTLE REGARDING

HIS PLANS-TO BE ESCORTED

DOWN THE BAY. The Rev. Dr. Richard Lalor Burtsell will sail for Genon this afternoon on the North German Lloyd steamer Werra. From Genoa Dr. Burtsell will go direct to Rome, where he will, in all probability, have an audience with Pope Leo XIII regarding the schism between Archbishop Corrigan and several

prominent Catholic prelates. The people of Rondout gave Dr. Burtsell a rousing farewell. The Rev. John J. Gallagher is now the ecting rector of Dr. Burtsell's Rondout parish. Dr. Burtsell is staying at his brother's home, No. 413 West One-hundred-and-forty-first-st. Since he arrived, he has had no cessation of callers, for occasion has been hailed with joy by hundreds of friends of Dr. McGlynn, who show their gratitude to the transferred prelate for his unswerving fidelity and sacrifice for the former rector of St.

A Tribune reporter called on Dr. Burtsell vester day afternoon. He is a fine intellectual-looking man, about fifty-five years old, with a well-defined Roman nose below a pair of piercing eyes. As sual, he was clean shaven, and he strongly reninds one of Von Moltke in the contour of his face. He is not so tail, but is active and wiry, and has much the appearance of a soldier. "What are your plans for the future?" the re

porter asked. "I have nothing to say to the newspapers," replied Dr. Burtsell. "You are going abroad, are you not?" asked the

reporter. Yes, that is true. I go to Rome from Genoa. But I don't wish to say anything more. I am not

in a position to talk." Burtsell, it was learned from other source will remain about a month in Rome, and will then travel for a few weeks on the Continent before returning, his friends hope, with a satisfactory count of his interview with the Pope. A steamer has been chartered by a number of Dr. Burtsell's old parishioners to accompany the Werra, on which their favorite rector has taken passage, down the bay. The Werra will leave her pier in Hoboken at 2 o'clock this afternoon, and the steamer for Dr. Burtsell's friends will start from Twentieth-st, and North River at noon. The committee in charge will be Samuel Goodwin and John J. Bergen. A number of clergymen will be among the party,

MONSIGNOR SATOLLI TAKES A REST. RECEIVING NO CALLERS-HE OFFICIATES AT EARLY MASS.

Monsignor Satolli, who arrived in the city Thursday afternon from Washington, and who is a guest of the Jesuit Fathers at the College of St. Francis Xavier in West Sixteenth-st., remained in absolute quiet yesterday. He was present and officiated at early morning mass. Later in the day many visitors presented themselves at the college, but Monsignor Satolli received no callers. It was said by one of the brothers at the college that Monsignor Satolli was resting; that he had no Monsignor Satolit was resting, that he had he plans whatever until Sunday, when he would go to Brooklyn to dedicate the Church of St. Agnes; the prelate would probably drive out to the Park during the afternoon. He was not looking well, the brother said; he had been so constantly "on the go" since he came to this country, and had had so much to attend to here and there, that it was no wonder Monsignor Satolit should want to rest.

Smith, of St. Joseph's Church, dis-covered that the followers of the deposed curate, Father Murphy, were going around from house to house asking the different parishioners not to conribute to the support of the new church which was recently built and has not yet been fully paid for. Since the ejectment of Father Murphy, in the early part of the week. Bishop Wigger, of the diocese, has been asked to take a hand in the struggle. Yesterday the following letter was received from the Rishop by the deposed priest, who still holds

for you ever again to get an appointment in this country."

It is understood that no attention will be paid to the letter, and that the followers of the excurate will at once proceed with the case to Monsignor Satolli. The case promises to be interesting, as the excited followers of Father Murphy declare the matter will be carried to the Vatican before they will surrender to the Bishop of the diocese.

here. Pardridge, Ream and some of the other shorts helped the Wall Street crowd seil out. Prices declined a cent and closed weak. December sold from 66 to 65, and closed at 654,95% cents. May closed at 745 cents premium. There was a lot of other bear news—big Northwestern receipts, lower cables and poor cash demand—but the Washington news overshadowed everything. Minneapolis and Duluth had 1,605 cars, almost 30 more than the same day last year. Chicago had 25 cars; the estimate for Saturday was 20. At around the bottom after the market had declined a cent there was considerable covering of shorts. Pardridge and Armour leading in it. Practically no cash business was effected; no charters were made.

Washington news was as overshadowing an influence in corn as in wheat. Prices declined 45 cent; the close showed only partial recovery. May sold from 12% to 42, and closed at 12% cents. Bright, cool weather made large receipts. There were 722 cars; the estimate for Saturday was 55. The shipping demand was not so good; the charters were reported for 120,000 bushels. Oats went the way of the other grain markets. May sold between 314 and 30%, and closed at 32% aroay centa. Provisions opened firm on very small hog receipts and on higher prices at the yards. About middey they yielded somewhat, in sympathy with the grain markets. The packers brought about a recovery at the close. There were 1400 host, the estimate for Saturday was \$5,000. Prices at the yards were 10 cents higher.

On the curb in the afternoon "puts" on December wheat were 64%; "calls" on May, 42%.
